

Baroness LM285 Unique Selling Points

BARONESS
Quality on Demand

High Build Quality

- * Simple robust design made from high quality materials.
- * No complicated electronics, computer systems or specialist diagnostic equipment.
- * Exceptional reliability, reduced downtime, lower maintenance costs, long warranty and a long service life.

Operator Safety

- * Fully certified ROPS and seatbelt system.

Maintenance Accessibility

- * Gull-winged engine covers for easy all-round engine access.
- * Swing open rear radiator cover for quick access to the radiator, oil cooler, battery and air filter.

Nickel-Chrome-Molybdenum Cutting Reels

- * Stays sharper for longer thus enhancing grass condition whilst reducing maintenance.
- * Maximises the benefits of relief grinding thus minimizing friction heat and wear.
- * Compatible with backlapping therefore keeping the blades sharp at a minimal cost.
- * Machine downtime reduced.

Kubota Diesel Engine

- * A powerful 33hp turbo diesel engine provides ample power over demanding terrain.
- * World renowned reliability.
- * Excellent aftersales backup.

Front Roller Options

- * Full width grooved front rollers for fine turf applications.
- * Corner wheel option for longer grass applications.
- * Choice of 5, 7 or 9 blade cutting reels.

Versatility and High Productivity

- * The rear outer cutting units can be individually lifted to allow access to small areas or lowered for high productivity in wide open spaces.
- * Suitable for multiple applications including sports fields, large formal lawns and golf course fairways, approaches and semi-rough.

Tungsten Tipped Bedknives

- * Long life, low maintenance.
- * Matched in hardness to the cutting reels for even wear.
- * Keeps its edge for 4 times longer than competitor's blades.
- * Resistant to top dressing.

Excellent Slope Performance

- * Wide four wheel configuration for increased stability.
- * High productivity and quality of finish on large sloping areas.

Superior Traction & Climbing Ability

- * Constant 4WD
- * Very light footprint with even weight distribution, thus minimizing marking of soft ground.
- * Minimal marking on turns compared to 3WD machines
