

## WALL FITTING art. COL402

- Fix the water post to the water outlet with the 1/2" connector (B) , and screw the nut (A) with an hexagonal key size 11, in order to fix all at once (fig.1).
- Adjust manually the spacer at the wall in order to make the water post more steable once the hose is assembled (fig.2).
- Finally assembly the hose hanger (fig.3).

### **\*CAUTION**

**Empty the water circuit during the winter months.**

The taps provided are universal and , in case of wear, they can be replaced with other taps

Hose hanger to assemble directly in the water post

We suggest to roll up not more then 10mt of garden hose.
